AKMD Skincare Blemish Dissolver set

- [Share](#) 10 [Tweet](#) 0 [+1](#) 0 [Pin It](#) [PRINT](#)

FEATURED IN

- Editors' Favorites: Week of 3.14.11

WHAT IT IS:

A spot treatment for pimples

WHAT IT DOES:

Clears up blemishes and reduces redness; also comes with a medicated concealer

KEY INGREDIENTS:

Blemish Dissolver: Salicylic acid (acne treatment); tea tree oil (acne treatment and redness reducer). Correct and Cover: Sulfur and resorcinol (acne treatment)

HOW IT FEELS/SMELLS/LOOKS:

The Blemish Dissolver is a transparent liquid that comes in a sponge-tipped tube about the size of a marker, while the Correct + Cover is a tinted liquid housed in a much smaller tube; both products have a medicinal smell.

WHY WE LIKE IT:

The Blemish Dissolver comes in a no-mess touch stick that can be thrown into a makeup bag and applied without a mirror—and the formula is medical-grade, so it works fast. The acne-fighting Correct + Cover concealer does double duty in fighting pimples and camouflaging stubborn redness, but it only comes in one shade, which may be too dark for very fair complexions.

—Cristina M. De Oliveira
